

RESUME

Name: Keerthana R

Department: Information Technology

Phone Number: 8883755465

Email: Keerthanaramesh28112003@gmail.com

Linkedin: <https://www.linkedin.com/in/keerthana-ramesh-b80134278>

GitHub: <https://github.com/Keerthana2811200>

Objective:

Dedicated Information Technology student with a strong desire to apply academic knowledge in a practical setting. Passionate about learning new technologies, solving real-world problems, and contributing to innovative projects. Seeking opportunities to grow professionally and collaborate effectively in a dynamic environment.

Education:

SSLC | 2019:

Government girls Higher Secondary school -89.6%

HSE | 2021:

Government girls Higher Secondary school -91.5%

B.TECH (Information Technology) | 2022-2026:

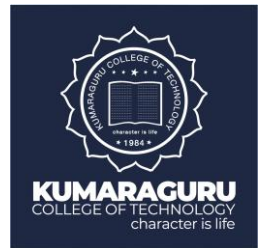

Kumaraguru college of technology with CGPA-8.25

Soft Skills:

- Time Management
- Adaptability
- Communication
- Active Listening

Technical Skills:

- C, Java
- C++
- Generative AI
- React.JS
- SQL
- HTML, CSS, MIT (Mobile app development)

Projects:

- **Recipe Recommendation System:** Developed a web application using **React** and **Flask** that suggests recipes based on user-provided ingredients using a machine learning model.
- **AI Powered blogging website:** A dynamic blog platform where users can read blogs and post comments. Admin login is secured with a fixed username and password. When a new blog is added, the content is automatically generated using AI, making content creation effortless and intelligent.
- **MERN Todo App with Authentication:**Built a full-stack Todo app with **user login/signup** using **JWT** enabling secure task management. Implemented **CRUD operations** with React, Node.js, Express, and MongoDB.

Certifications:

- Hacker rank-CSS|Java(Basics)|SQL(Basics)
- Artificial intelligence-Infosys Springboard
- HTML,CSS,JAVA-Great Learning
- Javascript Basics, Software Engineering: Modeling Software Systems using UML, Supervised Machine Learning: Regression, Generative AI: Introduction and Applications-Coursera

Personal Interest:

- Artificial Intelligence and Machine Learning
- Web Development
- UI/UX DESIGN
- Sports
- Book reading
